

## Amarna Consult Limited Newsletter

*ACL Newsletter  
Volume 1, Issue #1  
December 2015*

To our valued clients and associates we are pleased to introduce you to our first monthly newsletter. We feel privileged to have you as the first recipients of our newsletter. Amarna values your business and loyalty and would like to keep you updated with our happenings so a monthly issue of our news will be sent to you.

### ❧ Our Services ❧

#### Structural Engineering

Structural design is a cornerstone of our practice at Amarna. We have partnered with clients on projects of all types and sizes, from renovations to stadiums, private residences to hotel resorts, design-build to prime consulting.

#### Civil & Geotechnical Engineering

Our Civil and Geotechnical Engineering team fully appreciate the design challenges associated with the implementation of infrastructure systems and combine their expertise with advance 3D modelling programs as a tool for design, and construction coordination of land subdivisions, playing fields, marinas, and individual sites.

#### Value Engineering

With the rising price of construction, the aim of our value engineering process is to identify opportunities to remove unnecessary costs while assuring, and at times improving quality and reliability of the structure.

#### Construction Management

Our construction management service will help our clients navigate the ins and outs of the post-design construction.

#### Architecture

Our goal is to assist, lead, and even challenge our clients to help them maximize the full aesthetic potential of their architectural projects.

### ❧ Staff Spotlight ❧

**Danny Delgado**  
Architect

Danny graduated from the Higher Polytechnic Institute with an Architectural Degree in 2009 and has since acquired membership with the National Union of Architects and Engineers of Cuba.

He has worked in the architecture industry for over 4 years, with his background being in 3D renderings and videos and specializing in architectural designs.

Danny has been added to the Amarna team as her architect since August 2015 and has applied his experience and expertise to a number of local projects.

## Our Ongoing Projects

### St. Lucia:

#### **CDB (Caribbean Development Bank) Projects**

**BNTF7:** *Projects geared towards improving the living conditions of persons in under privileged communities.*

- Belvedere to Bouton Water Extension
- Ravine Poisson Public Sanitation Facility Replacement.
- La Bourne Water Extension
- Bacadere Main Drain.

### St. Kitts:

Amarna Consult Limited is the Civil and Structural Consultant responsible for advising the client on value engineering alternatives and verifying the efficiency and sustainability for all civil and structural engineering design drawings for the **Koi Resorts and Residences** project.

### St. Vincent:

In April 2015 Amarna signed a contract with the Vincentian Government to carry out works in improving its **Agricultural Feeder Roads**. To this date the designs of 8 roads have been completed and we are currently preparing the tender documents.

### Dominica:

Amarna signed a contract with the Dominican Government in 2014 under an **EU Funded Programme** to upgrade its **Agricultural Feeder Roads** network. Currently, Amarna has completed the design of 10 feeder roads and are processing the Tender Documents.
